

# HALO

The HKD Halo is an innovative multi-nozzle fan gun design that thrives in marginal temperatures and low water pressure environments. The Halo makes heavenly snow in all conditions.

The HKD Halo has 8 flows ranging from 15 to 150 GPM and can be operated with water pressure as low as 120 PSI. The Halo is available in manual, semi-auto or fully automatic when paired with the Minion Hydrant actuator and a network connection. Snow quality and simplicity is the core of the Halo.

Its modular design is plug and play with current generation HKD fans. Simply remove the Diablo Module and plug in the Halo - it's a one-person job. The HKD software recognizes the technology change and makes the necessary adjustment to the snowgun performance curves. It's like having two fan guns in one. The Halo Fan design is modular and interchangeable between our three styles of supports: the articulating boom (Raptor), fixed tower with workbasket, and the carriage.

## PRODUCT SPECIFICATIONS

<b>Controls</b>	Manual, Semi Automatic or Fully Automatic with KLIK technology
<b>Start up Temp</b>	30 deg F   -1 deg C
<b>Water Flow</b>	15 - 150 gpm 56 - 560 IPM
<b>Projection</b>	up to 250 ft   75 m
<b>Length</b>	80 in   2030 mm
<b>Width</b>	98 in   2500 mm
<b>Weight of Gun</b>	1760 lbs   800 kg
<b>Oscillation</b>	350°
<b>Chassis Options</b>	Carriage, RaepTOR, Tower
<b>Voltage</b>	460 V   600 V   380 V
<b>Frequency</b>	60 Hz   60 Hz   50 Hz
<b>Compressor</b>	7.5 HP   5.6 kW
<b>Fan</b>	25 HP   19 kW
<b>Heating</b>	0.16 HP   0.12 kW
<b>Electrical Cord</b>	150 ft.   45 m
<b>Water Pressure</b>	120 - 900 PSI   8 - 62 Bar
<b>Camlock Water Connection</b>	1.5 in. or 2 in. (with swivel coupling)
<b>Nozzle</b>	Multi-nozzle configuration
<b>Nucleators</b>	4
<b>Warranty</b>	1 year

### Add-Ons
